EXTREME SUMMER WEATHER COMMUNITY RESPONSE PLAN

2024

Anytime an extreme weather warning is issued from Environment Canada, the warnings can be found at Criteria for Public Weather Alerts - Canada.ca

What Qualifies as Extreme Hot Weather?

Extreme heat warnings are issued by Environment and Climate Change Canada (ECCC) when forecasted temperatures are 32°C or higher during the day and no less than 16°C overnight for two consecutive days or 2 or more days with a humidex of 38. An extended heat advisory is issued by the province for the same conditions for

3 days or more. However, there can still be extreme heat without a warning being issued, and this can still pose serious risks to people. High humidity (humidex) can exacerbate heat related illnesses by making it harder to sweat to cool off because the air is already saturated with moisture.

Extreme Summer Weather Community Response Plan

We have identified four key initiatives to keep Winnipeggers safe this Summer. When heat warnings are issued by ECCC, the following steps will be enacted:

1. Emergency Weather Committee Meeting

End Homelessness Winnipeg will call an emergency weather committee meeting. The Committee includes representatives from the following stakeholders:

- The City of Winnipeg Office of Emergency Management and first responders
- Emergency shelters and Community organizations providing mobile outreach, safe space, drop-in and meal services to people experiencing homelessness
- Healthcare providers
- Government and philanthropic funders
- Environment and Climate Change Canada

2. Extreme Weather Response Funding

The funding is meant to supplement the work of homelessness serving community organizations. Organizations must deliver direct services to individuals who are experiencing homelessness during the extreme weather period. It is not a requirement for organizations/agencies to be funded through Reaching Home; however, this is not for organizations to start a new outreach, drop-in, or shelter project.

See extreme weather response funding process/ procedure document:

Emergency Response - End Homelessness Winnipeg

3. Aid from Community Organizations

In periods of extreme heat, community organizations will provide water, cooling locations and pop-up cooling tents and supplies for the community.

4. Aid from the City of Winnipeg

The City of Winnipeg will provide hydration stations, community centre cooling spaces and city facilities listed below:

Hydration Stations

In 2022 and 2023, the City of Winnipeg installed three hydration stations as part of a pilot project to

provide clean drinking water for residents during the summer season. Locations were selected based on need and feedback from community partners, with a particular focus on vulnerable and unsheltered Winnipeggers that are more at risk of heat-related illnesses.

For 2024, the initiative has been expanded to include eight hydration stations in the following locations:

- 185 Young Street near <u>Broadway Neighbourhood</u> Centre.
- 469 Selkirk Avenue near <u>The Bell Tower.</u>
- 888 Main Street near Mount Carmel Clinic (Southwest corner of Main St at Stella Ave).
- 300 block Princess Street near Siloam Mission (Northeast corner of Princess St at Henry Ave).
- 48 Osborne Street near 1JustCity (Northeast corner of Osborne St at Roslyn Rd).
- 369 Furby Street near Agape Table (East side of Furby St at entrance to parking lot).

- 400 block Maryland Street at Ellice Avenue near Spence Neighbourhood Association (Southeast corner of intersection up against building).
- 190 Disraeli Freeway at Henry Avenue (<u>in front of N'Dinawemak</u>)

Community Centre Cooling Spaces

The following community centres are available as cooling spaces this summer during select hours. Please contact the community centres for applicable hours.

- Bronx Park Community Centre at 720 Henderson Highway.
- Clara Hughes Recreation Park at 281 Henderson Highway.
- East Elmwood Community Centre at 490 Keenleyside St.
- Luxton Community Centre at 210 St. Cross St.
- Riverview Community Centre at 90 Ashland Ave
- Lord Roberts Community Centre at <u>725 Kylemore</u> <u>Ave</u>

City Facilities

- Residents are invited to cool off and access clean drinking water in our leisure centres and libraries during regular operating hours, particularly during extreme heat events.
- Our indoor pools and outdoor aquatic facilities, such as spray pads, wading pools, and heated and non-heated pools are also great ways to cool down during the warm summer months.

Water and Cooling Donations Drop off Locations

Water and cooling donations of hats, sunscreen, clothing, popsicles, fruit etc can be dropped off at the following organizations:

N'dinawemak - 190 Disraeli Fwy. Donation times: Monday to Friday 9-5pm **Main Street Project** - 661 Main Street (back of the building). Donation times: Monday to Saturday 9-4pm
